RSS Feeds

FIDAfrique - IFADAfrica

What is RSS?

RSS (Rich Site Summary) is a format for delivering regularly changing web content. Many sites, blogs and other online publishers syndicate their content as an RSS Feed to whoever wants it. This technology allows access to the content of websites without visiting sites themselves.

You easily stay informed by retrieving the latest content from FIDAfrique portal you are interested in. You don't need to visit each time the portal.

How to use RSS?

It's very easy. From any page, simply click the small icon at the right of the address of the page. A list opens, offering a list of information feed. By choosing one of these "feed", it will move into the browser or aggregator of online content you want.

This provides a continuous thread that collects all information published on this site like a thread of contents.

Please, Keep in touch.
